

THE ENTERPRISE ADVISER NETWORK

OFFER TO BUSINESS LEADERS

Offer to business leaders

Background

The D2N2 Local Enterprise Partnership has been selected to deliver the flagship 'Enterprise Adviser Network' working in partnership with The Careers & Enterprise Company.

A powerful network of business leaders, schools and colleges who will work collaboratively to improve enterprise education and the opportunities available for young people.

What is an Enterprise Adviser?

Drawn from the business community, an Enterprise Adviser is a high calibre volunteer who is passionate about connecting young people to the world of work. An individual who can use their expertise in business to shape and tailor future enterprise education.

What does an Enterprise Adviser do?

An Enterprise Adviser will work closely with the senior leadership team at a school or college on a one-to-one basis to develop, support and improve their employer engagement plans and enterprise activities.

The network will be managed by our dedicated Enterprise Coordinator, harnessing the relationship between you and your matched school or college.

Why get involved?

Have your say – Help shape and develop enterprise curriculum, work within the network to help resolve skills issues.

Raise your profile – Great PR for your company and an opportunity to fulfill your corporate social responsibility targets.

Access future talent – Raise awareness of your industry, help create a talent pipeline.

Improve your networks – Network with business-minded peers, share best practice, and keep up to date with the direction of education.

Efficiency – A great way to access a cluster of schools through regular network meetings.

Impact – Working on a 1-2-1 basis allows you to maximise your impact – our Enterprise Coordinator will help you measure this.
